Production of coal from mining segment composed 2 100 tonnes of coking and dual purpose coal.

Currently the Company ceased production of thermal coal and coal from waste dumps processing due to dangerous working conditions for employees caused by ongoing military conflict in the region and consequently production volumes of these types of coal are insignificant. For this reason the Company will provide aggregate data indicating total volume of coal produced without specification by types of coal.

The Management Board will duly inform investors about the update of production goals depending on the evolution of market conditions.
